*"There are a lot of different voices today claiming inside knowledge of what is happening in our solar system and beyond. In my research, only Elena Danaan has an ongoing history of revealing information that no one without direct knowledge could possibly know. Then later, that information becomes public knowledge and verified, thus continuing to establish her credibility"*

Preface by Dan Willis:

Ever since the UFO/ET matter has been made aware of by the general public decades ago, we have been under [psychological warfare](#) by infiltrated deep state elements and their assets using secrecy and deception to hide the full truth in order to confuse the public. This serves to allow the injection of a false narrative which supports a hidden agenda that does not serve the best interests of humanity, but rather the self interests of these deep state elements to enslave rather than liberate humanity. As the full truth exposed of this matter has the most profound implications for all beings on our planet.

In a psychological war to control our perceptions, how does one determine who is real and who is a deceiver?

The good thing about truth, is that it has the enduring ability to confirm itself, whereas a lie eventually over time will be exposed. This is why deep state assets mix a lot of truth with their information in order to gain credibility with the public, while mixing in a lie. Many of these lies are then used not only to sow confusion to the public which can effectively hide the truth, but through association of similar topics, the lie acts to discredit others who are bringing forth real information. An obvious example of this is associating truthful information together with a lie is the "flat earth" theory, allowing the truthful information to be disregarded through association in the public mind.

Witnesses, whistleblowers, contactees etc. truthfulness can be gauged by a number of factors that yield either a high or low probability representing truth. Today with so much information and disinformation available through the internet, anyone after watching multiple online videos can easily fabricate a false testimony incorporating several common elements brought out by multiple perspectives and appear to sound feasible and credible. It's hard to comprehend why an individual would purposely deceive the public. They could be delusional, seeking attention, unknowingly mind controlled or are being compensated by deep state intelligence agencies in order to be an asset in spreading disinformation.

Over 22 years ago when I joined 20 military and intelligence witnesses that each stated [before the media of the world](#) that we are each willing to testify under oath before a congressional hearing, with some of us supporting their testimonies with official documentation, the degree of probability of being disinformation by these witnesses is on a scale of being quite low to zero. On the other hand, the way the [mainstream media](#) reported this world disclosure event using what is termed a "[limited hangout](#)" is quite high that they were indeed the assets promoting disinformation. The event inspired a UK computer hacker to verify this information in the computer systems and discovered the US Navy's Solar Warden Secret Space program. He was facing 70 years in prison for this act and the probability that he made up the story and was giving disinformation is also quite low.

Since that time [many individuals](#) claiming to have total memory recall of their service in space with the Solar Warden program as well as other programs in space, all have very similar accounts as secret space program witnesses. Unfortunately, due to it's nature, only William Tompkins was able to provide substantiating documentation in his involvement with the US Navy's secret space program.

Two notable exceptions by individuals with practically zero probability that they are disinformation assets, who were involved in the French section of the Solar Warden program, Jean-Charles Moyen and David Rousseau. Both had no knowledge of each other and later it was discovered that they completely independently gave very detailed accounts which perfectly corroborated them both working together in the Solar Warden program.

If a person truly has inside information regarding these operations in our solar system that are hidden for the most part from the people dwelling on earth, then they would be able to provide information that can later be corroborated that is otherwise not accessible by any disinformation assets on earth.

Such a person is my friend Elena Danaan. Elena was rescued as a child by the Galactic Federation of Worlds from an abduction where they had to repurpose the abduction implant to be instead a secure military communication device which she uses to communicate with her contact and rescuer Thor Han. Elena has graciously accepted the task of being an emissary for the Galactic Federation of Worlds and has been receiving and sharing information from her communications as well as her firsthand off planet experiences. Her information has

been consistently corroborating with actual events that are revealed and confirmed shortly after disclosing them publicly. Others who claim contact with the Galactic Federation of worlds have been unable to do this and thus validate their contact.

Elena became more publicly active in 2020 and released her first book "A gift from the Stars" where she had been shown in order to graphically detail 110 different extraterrestrial races with illustrations and the unique particulars of each race and specific details of each of their home planets.

Dr Michael Salla, ever since the 2001 disclosure event has been vetting many of these witnesses and doing scholarly research into this subject for decades. He has closely been taking account of the messages shared by Elena and finding them to match perfectly with his other sources, such as his military witness insider "JP" and others.

My friend Dani Kidssoulspeak Henderson has also done an excellent [personal account of her perspective of Elena Danaan](#) that I fully concur with

The pattern of information that Elena releases that she receives from Thor Han followed by actual corroboration of her information, represents a long list that I've taken note of.

Serious researchers of this subject, should also take note as well and do the due diligence and also confirm the credibility of the information provided by Elena Danaan, as well as all others who are claiming they have accurate inside information of what is occurring in our solar system and beyond, in order to expose what is accurate and what is disinformation.

### **Communications received via a secure military quantum communication implant with the Galactic Federation of Worlds (GFW) through her contact Thor Han Eredyon**

Elena Danaan was first abducted as a child by grays of the Orion (Nebu) group and rescued by Thor Han. The Orion grays were violating the Prime Directive in their act of abduction against her consent. The Orion group originally put an implant into Elena during the abduction which the GFW repurposed it to work instead as a

communication device for the GFW. Elena has been authorized to be a emissary for communicating the messages from GFW to the people of earth.

Special acknowledgement goes to the research work of [Dr. Michael Salla](#), who was originally inspired by the witness testimonies disclosed at the [2001 National Press Club event](#) into the subject of exopolitics, which is the political study of the key actors, institutions

and processes associated with extraterrestrial life. As a teaching professor at a major university at the time, his interest in the UFO/ET matter conflicted with the university's accepted research criteria, and as a result was fired for his interest in this important subject. He now is able to devote full time investigative research and has graciously allowed me to quote passages from his articles and [best selling series of books](#) that I highly recommend in order to gain a better understanding of this complex subject. Dr Michael Salla has been extensively researching the information that Elena Danaan has provided, much of which has corroborated with scientifically verifiable events. He has stated:

*"This kind of scientific corroboration is an important reason why I enjoy working with Elena and believe her information from her Galactic Federation sources is reliable and well worth considering to get the big picture of what is happening on Earth, our solar system, and beyond."* [Ref](#)

**2020 DEC 7 - Elena published her book about the governments working together with Galactic Federation three months before Prof Haim Eshed publicly announced it**

Elean Danaan published "a gift from the stars" on September 3rd 2020 three months before Haim Eshed announced that some governments were working secretly in white programs with the galactic federation of worlds.

Ex-head of Israeli space program reveals joint US/ET base on Mars and that the Galactic Federation is awaiting the right time to be revealed to Earth.

Prof Haim Eshed, a senior scientist who for nearly 30 years headed Israel's space security program has revealed secret US extraterrestrial agreements, a joint US ET base on Mars, and how a Galactic Federation is closely monitoring human affairs. Major media around the world is covering Prof Eshed's revelations. He further declared that President Trump was on verge of extraterrestrial disclosure but was told to hold back by the Galactic Federation since

we weren't at the right level of technological development. Apparently Space Force was created to help speed up humanity's technology base.

## **2021 JUN 6 - Thor Han reveals Dark Fleet Evacuation from Antarctica confirmed by McMurdo Base employee**

Thor Han confirmed that as a consequence of the Dark Fleet being harshly hit by the Alliance and the Federation, the German (4th Reich) presence in Antarctica is abandoning their outpost. He told me that there was an exodus going on, towards colonies out of this solar system, through a portal (jump door as he calls it). He said that the Reptilians based in Antarctica were leaving too.

McMurdo Base Antarctica

A former employee at McMurdo Base in Antarctica confirmed Elena's information about the Dark Fleet evacuating Antarctica and handing over their bases to the Chinese. The employee "Frank" saw many Germans leaving in the middle of the 2021 Antarctic Winter, and

many Chinese arriving at the same time.

On June 6, 2021 Elena received an email from Frank informing her of an unusually high number of people entering and leaving Antarctica through McMurdo, which is the largest base in Antarctica. This is confirming what Thor Han communicated about an exodus of the German 4th Reich Dark Fleet.

This is what Frank told Elena in an email that was later forwarded to Dr Michael Salla:

*"I want to let you know that the Chinese have 5 bases here already and are setting up 4 more immediately during the absolute worst time of year. There are Chinese everywhere down here and up until a month ago I never saw even one.*

*Also of note, now Turkey has been sending in troops independently and so are quite a few other countries from Africa & South America all of them want to set up bases here and are bringing in the infrastructure to do so.*

*Everybody seems to want to get in on whatever is down here as soon as possible to not be left out. I am more certain than ever now that the mad rush is because there is definitely something here. I noticed more and more German speaking people coming through as well. Numbers have always decreased in the winter time down here not increased."*

This is how Elena summarized her communications from Frank in response to Thor Han's message:

We received another message from Frank saying that Thor Han was right, the Germans were all arriving from inland Antarctica and leaving the continent on boats to South America. They were very secretive and wouldn't talk to anyone. This was really happening... The Dark Fleet was being hammered by the Earth Alliance and the Galactic Federation, on Earth, Mars and in this star system, and the Antarctica exodus was the very proof that all of this was real.

**2021 JUL 17 - Thor Han reveals the Jupiter meeting agreements which corroborates with the signing of the Artemis Accords**

According to a former professional archeologist and 'contactee', Elena Danaan, a similar set of meetings have just concluded near the planet Jupiter to discuss the new order in our solar system that will emerge with the impending military collapse of the Dark Fleet and its

Draconian, Orion, Deep State, and corporate allies.

She says the Galactic Federation of Worlds met recently with the representatives of the Earth Alliance and an alliance of secret space programs in a set of 12 meetings to discuss the new order in our solar system. It's worth pointing out that the existence of a Galactic Federation was recently acknowledged by the founder of Israel's space program, [Professor/General Haim Eshed](#)

Elena contacted me on July 17, 2021 with the dramatic news of the meetings that had been completed near Jupiter and the different nations that were involved through their respective space programs. She said the final meeting had concluded only a day earlier with an agreement being reached that would establish a multinational space alliance between the major Earth nations under US leadership.

This is what Elena wrote in her first email:

*"Agreements have been passed on Jupiter between the different progressive galactic coalitions and Terran military forces, to share the use and the protection of this star system, regarding to economic and military domains, in preparation for the future. Territories of action have been set. Terran Humans are officially taking ownership of their system. The US was the lead representative in these series of meetings; they were chosen by the GFW because of their abilities, resources, and goals, best able to guarantee a sustainable and glorious future for off-world humankind. Long years of secret collaboration with the nations of Terra have come to completion, but we still need to bring closure to this war for the liberation of this system. Until then, we will need to work hard, and when this day comes, we will all be ready to step into a new era of fraternity and cooperation together."*

What corroborates Elena's remarkable claims here are the recent signings of the Artemis Accords among countries with functioning space programs. These are bilateral accords negotiated between space faring nations and the United States that were first signed on October 13, 2020, between the US and seven nations: Australia, Canada, Italy, Japan, Luxembourg, United Arab Emirates, and the United Kingdom.

In a second email Elena wrote:

*"The GFW only wants to work with a unified global civilization, not with a clutter of different rival space forces playing power games. Thor Han said that there are actually fourteen countries involved in*

*space programs, who were represented there, but a top six have programs recognized by the GFW as most progressive and durable, and fit to join forces with them. The eight others were just in for commercial reasons benefiting the many. Thor Han was also speaking about a "horizontal" coalition of these top six, coming up as a unified space department. Would we be witnessing, as you said it Michael, the birth of Starfleet?"*

What corroborates Elena's information here is that no other space faring nation has joined China and Russia in their proposed International Lunar Research Station initiative launched with their bilateral agreement reached in June 2021. Only the US has succeeded in creating a multinational space coalition through the Artemis Accords, which Russia declined to join since it was "too US-centric," and China was excluded from joining due to its continued theft of intellectual property and industrial espionage.

According to earlier information released by Elena, these Dark Fleet-Draco-Orion bases have come under attack and are at various points of liberation. This is consistent with claims by a number of insiders that the Dark Fleet and their corporate allies have been cut off from their interstellar partners, which has led to dwindling resources and significant defections. It also matches with data released by remote viewers associated with the [Farsight Institute](#) discussing the current exopolitical situation.

Elena's latest information is supported by much circumstantial evidence, what other secret space program insiders have been recently claiming, and remote viewing data. While this doesn't confirm her remarkable claims, it does make them worth investigating further for those wanting to know what is currently happening in deep space right now.

Further confirmation of the Jupiter agreements was revealed later on Aug 2021. US Space Command leader, General James Dickinson confirmed that over 100 agreements have been reached with different countries, agencies, and corporations for space related activities. Only a month earlier, General Dickinson allegedly attended a series of meetings above Jupiter where comprehensive agreements were reached between the Galactic Federation of Worlds and 14 space faring nations, including CEOs from major aerospace companies.

## **2021 AUG 30 - Thor Han reveals the full text of the Prime directive matching what was given to Gene Roddenberry**

Dr Michael Salla discovers a Star Trek book unbeknownst to Elena titled "The Federation" where the text given to Gene Roddenberry matches almost exactly, as the Galactic Federation of Worlds was providing the information for the Star Trek series.

Dr. Michael Salla's [interview](#) with Elena Danaan, a former professional French archeologist, discusses a recent communication she received that details the Prime Directive of the [Galactic Federation of Worlds](#) (GFW). Elena is publicly releasing the ten articles making up the Prime Directive, along with commentary by her primary extraterrestrial contact, Thor Han Eredyon.

The contents of the Prime Directive are known to participants in secret meetings and agreements that have occurred between the Galactic Federation and national space program leaders and major aerospace corporations. Its contents have not been previously publicly released.

The "Prime Directive" was popularized in the science fiction series of Star Trek, which had it's origins with the Office of Naval Intelligence providing the script for Gene Roddenberry in order to "seed" these concepts into the public's mind. This explains why there has been minimal contact with off planet cultures with this guiding directive not wanting to interfere with the evolutionary process of evolving civilizations. Considering that Stage 3 civilizations have interfered with Earth's Stage 2 civilization, this allows the Galactic Federation of Worlds to intervene against the interfering Stage 3 civilization. In example how the Orion (Nebu) group has abducted millions of people of Earth against their consent.

## Galactic Federation of Worlds

### **Classification Scale:**

Stage 1: "Developing" life forms non-organized in a structured society.

Stage 2: "Primary" life forms organized in a structured society having developed spiritual concepts.

Stage 3: "Interstellar" culture having reached interstellar capacity and made contact by its own process with another galactic civilization.

Stage 4: "High" culture having reached 6th Density level and beyond.

## **THE PRIME DIRECTIVE**

### **Galactic Federation of Worlds**

#### **I**

The Prime Directive is to serve as a moral, ethical guide and legal template.

#### **II**

The Prime Directive is applicable to all cultures in any world that have not yet achieved interstellar travel capacity and have not established an organized continuous relationship with an evolved external interstellar culture.

#### **III**

Nothing within these articles shall authorize the Galactic Federation of worlds personnel to intervene in matters which are essentially of the domestic, local or private jurisdiction of any planetary system, or shall require the members to submit such matters to settlement under any articles of the Galactic Federation of Worlds.

#### **IV**

As the right of each sentient species to live following the greater universal law of Free Will, in accordance with its natural and biological cultural evolution is considered sacred, no members or personnel of the Galactic Federation of Worlds may interfere with the normal, autonomous and healthy development of native life, society and culture. Such interference includes introducing superior knowledge, strength or technology, to a world whose members and society are incapable of handling such advantages wisely, judged on their present level of spiritual, moral and technological evolution.

#### **V**

The Galactic Federation of Worlds cannot expose an evolving species to technology that the species has not yet discovered or is currently capable of developing and using.

#### **VI**

Sharing and seeding of technology above the lesser evolved race evolutionary capability of understanding is prohibited or taken to the necessary minimum.

#### **VII**

It is forbidden to interact or communicate with any native resident of a lesser evolved planet or culture using any device, appliance, machine, tool, weapon, or invention representing an improvement upon the science and technology already in existence upon said planet.

#### **VIII**

Spiritual and moral knowledge should also be restricted to a bare and necessary minimum only using communication methods and devices at the current level of understanding of the lesser evolved race.

#### **IX**

It is not permitted to make contact with or interfere with lesser evolved races unless they are threatened by an outside source. In that case it is the moral obligation of the personnel of the Galactic

Federation of Worlds to evaluate the situation to determine a suitable course of action.

The free will of a Stage 1 or Stage 2 planetary culture works in accordance with the greater universal law of evolution, when not coerced or influenced by an outside source working for their own benefit to the detriment of the said lesser evolved culture. Manipulation of free will upon a lesser evolved culture is nullified regarding the greater Universal Law of Evolution. It is in this case considered by The Prime Directive as interference, and the Galactic Federation of Worlds reserves the right to intervene.

**X**

Federation personnel may not violate this Prime Directive, unless they are acting to right an earlier violation or an accidental contamination of said culture. This directive takes precedence over any and all other considerations, and carries with it the highest moral obligation.

**Comparison of the "The Prime Directive" that was given through the Office of Naval Intelligence to Gene Roddenberry**

"The Federation" Fictional [Book](#) published 1987 by Bernard Menke and Rick Stuart  
Starfleet General order 1 - p.5

Dr. Michael Salla [compares](#) the Prime Directives of the Galactic Federation of Worlds and the Star Trek series. His comparison suggests they came from the same source and others associated with the conclusion is that Gene Roddenberry and others associated with the Star Trek series had been given the actual text of the real Prime Directive - stored as a holographic document by the Galactic Federation, and released it in fictionalized form.

From Dr. Michael Salla's [presentation](#) comparing the directives

This is quite a remarkable correlation considering Elena Danaan never had exposure to this fiction book. Considering the history of how our stage of civilization was intervened in the 1930s by the Draco/Orion (Nebu) alliance which gave Nazi Germany advanced technology. Section X of the Prime Directive states...

"Federation personnel may not violate this Prime Directive, unless they are acting to right an earlier violation or an accidental contamination of said culture. This directive takes precedence over any and all other considerations, and carries with it the highest moral obligation."

This explains why the Galactic Federation of Worlds (GFW) had the right to intervene to right this violation by the Draco/Orion (Nebu) alliance by assisting the US Navy to develop it's secret space program "Solar Warden", whereas the definition of warden is "one that is responsible for the supervision of a particular place or thing or for ensuring that regulations associated with it are obeyed." so it appears it is in part to uphold the Prime Directive in our Solar system.

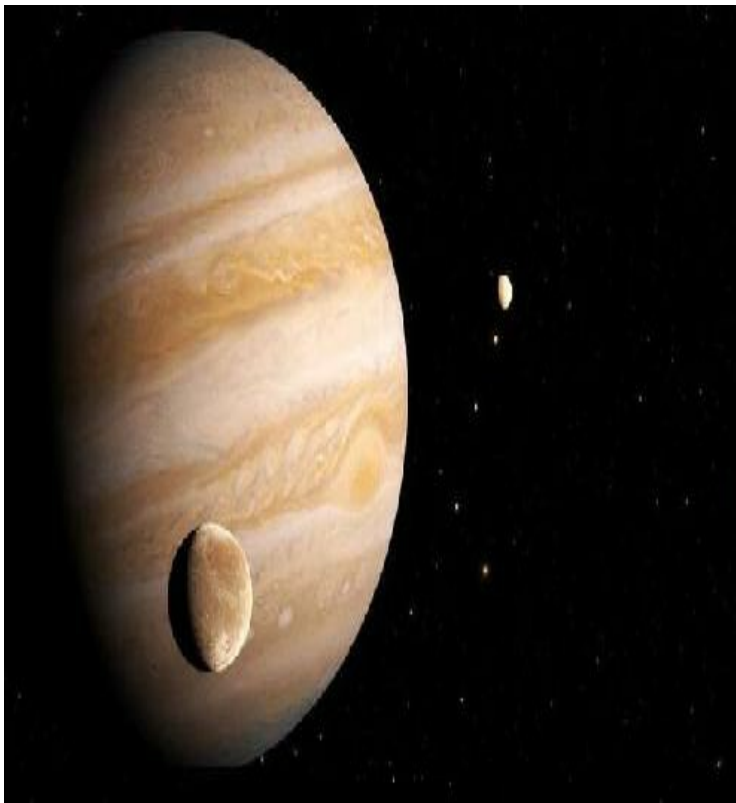

Understanding the Prime Directive that has been put in place explains in part the question in many peoples minds why they don't just land in mass and interact with our civilization in a large scale contact. This may explain the first contact meeting with President Eisenhower with representatives of the GFW in 1954 which warned of the Draco/Orion (Nebu) alliance to not trust them, which later shortly after the MJ-12 group circumvented Eisenhower's wish to accept what the GFW was offering people of earth, instead MJ-12 entered into a secret agreement called the Grenada Treaty with the Draco/Orion alliance, which was a technology transfer program in exchange for giving them permission to abduct humans and to have secret underground base operations on Earth. Even though permission was given by our government leaders, this treaty was in violation of the Prime Directive and allowed the GFW to step in and counter the Draco/Orion (Nebu) alliance's actions.

## **2021 OCT 4 - Thor Han reveals the meetings on Ganymede which corroborates with other witness testimonies**

Dr Michael Salla's witness JP later reports his mission to go to Ganymede as support personnel and Alex Collier both corroborating Thor Han's information

Ganymede one of the moons of Jupiter

My first source, JP, who currently serves with the US Army, revealed to me that an international space coalition has been secretly sending personnel and ships to Jupiter's moon Ganymede, to meet with a

powerful new group of extraterrestrial visitors regarded as friendly.

On September 21, 2021 JP first informed me about a large space convoy leaving the Moon and heading towards Ganymede to meet with an incoming group of friendly extraterrestrials. He told me:

*"Also, something good is happening. They're moving some technology from the moon to Ganymede. Among the soldiers everybody talking. Major space convoy... Sometime this week or next week the convoy leaves. Don't know the exact hit time. Earth satellite to Jupiter's satellite."*

My second source on what is currently happening on Ganymede is the extraterrestrial contactee Elena Danaan, who has passed on the most recent intel from her Galactic Federation source, Thor Han Eredyon, about the visitors who are establishing an outpost on Ganymede to coordinate with the Earth Alliance until humanity is ready for open contact.

My third source is long-time Andromedan contactee Alex Collier who confirmed that there has been much recent activity on Ganymede, which possesses a number of large extraterrestrial facilities that have been present there for thousands of years.

On October 4, 2021 I asked Elena whether she knew anything about "something big ... coming into our solar system", she replied:

*"I also heard about another great return, of powerful benevolent forces, from another dimension and realm. A great force that has always tried to free Humanity of Earth from slavery. This also is back. We are up for a great grand finale."*

This takes me to Elena's latest intel from Thor Han received on October 10, 2021 which provides much more information about this incoming benevolent force, and the connection with Ganymede:

Thor Han: *"The fleet from the Intergalactic Confederation has arrived in this star system. Their ships will be stationed around Jupiter for a while, until further notice to move nearer to Earth's orbit. The personnel and logistics are welcomed on the Ashtar outpost. **High officials are staying at the Council of Five facility on the moon Ganymede.** They come to evaluate the result of our common work regarding to the dismantlement of the Dark Alliance, and collaborate together with the Galactic Federation of Worlds a course of action for the next step."*

Thor Han's information here is stunning confirmation for what JP had earlier revealed to me back in September. A multinational (Earth)

alliance headed by US Space Command is sending a large convoy to Ganymede to meet with and collaborate with an incoming group of extraterrestrial visitors.

## **2022 JAN 4 - Thor Han reveals arrival of Intergalactic Confederation is activating space arks in our solar system**

On January 4, 2022, I received an important update about ancient space arks being discovered on the Moon, Mars, Antarctica, and other locations in our solar system. According to Thor Han Eredyon, a Galactic Federation pilot, whose messages are relayed through a former professional French archeologist, Elena Danaan, these huge space arks are activating due to the recent arrival of a large fleet of spacecraft belonging to an Intergalactic Confederation—parked in the vicinity of Jupiter and its moon, Ganymede.

Intergalactic Confederation fleet stationed near Jupiter

Thor Han's update is startling corroboration for information recently released by my US Army insider, JP, who visited one of these activated space arks on the Moon in joint secret missions being conducted by the US, China and other members of an "Earth Alliance" led by US Space Command.

Ref: <https://exopolitics.org/ancient-space-arks-activate/>

**2022 JAN 4 - Thor Han reveals that there is a large Ark in the Atlantic Ocean a week before witness JP goes on a mission there**

Dr Salla's witness JP later reports his mission to go down and into the Atlantic Ark on January 10, 2022. This mission to one of the ancient extraterrestrial arks being found under the Atlantic Ocean is that **it matches with information released earlier by Thor Han Eredyon through Elena Danaan on January 4**. When asked by Elena where the ancient arks could be found on Earth,

Thor Han replied:

*"South-America, Central Europe, North-West of Russia... **One under the waters of the Atlantic Ocean. This one is the biggest.** There are others as well but I won't tell any precise coordinates, it is not my responsibility but that of the Earth Alliance."*

Less than a week before JP's mission, Thor Han had already independently confirmed that a space ark was under the Atlantic and it was the largest of all those hidden throughout our planet. I found this to be stunning corroboration since JP had first told me about a location in the Atlantic to which he was taken around 2014 where a massive circle shaped platform was suspended over the top of something big.

## **2022 JAN 21 - Jean Charles Moyen and Elena go with Thor Han to experience the space ark near Lake Vostok, Antarctica**

Jean Charles Moyen and Elena Danaan describe trips they both took to a Galactic Federation mothership called the Excelsior, and then to Lake Vostok in Antarctica with Thor Han, where they witnessed a space ark with blue giants sleeping in stasis chambers. Elena describes how she was tasked by the Galactic Federation to witness Jean Charles as he toured the Lake Vostok ark.

## **2022 FEB 10 - Elena identifies 3 planets in Proxima Centauri system 2 years before verified by NASA**

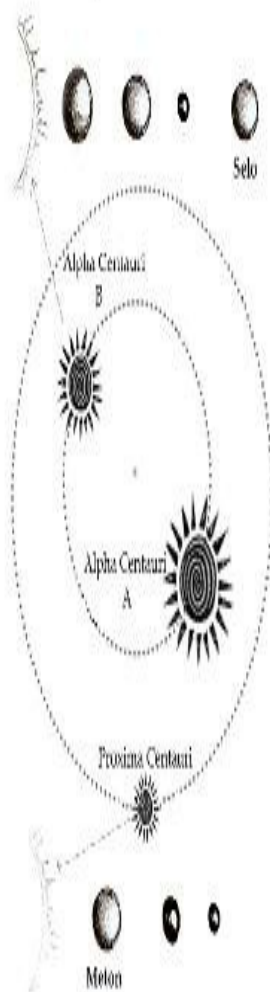

In Elena's 2020 book "[A gift from the Stars](#)" where she detailed 110 different extraterrestrial races and the planets they inhabit, she showed in an illustration that the Proxima Centauri system having 3 big inhabited planets (plus a few planetoids).

Two years later in Feb 2022 NASA discovered just as Elena described a third planet in the Proxima Centauri system.

This is an excellent example of Elena's information being substantiated by NASA's scientific announcement confirming that a third planet was discovered around Proxima Centauri, a red dwarf star. Which in her book, A Gift from the Stars, she had stated that there were three inhabited planets orbiting Proxima Centauri, four around Alpha Centauri, and six around Beta Centauri which she illustrated in a diagram (p. 340).

By [Mike Wall](#) published February 10, 2022

The candidate planet Proxima d is estimated to be just 25% as massive as Earth.

Dr Michael Salla stated:

"This kind of scientific corroboration is an important reason why I enjoy working with Elena and believe her information from her Galactic Federation sources is reliable and well worth considering to get the big picture of what is happening on Earth, our solar system, and beyond."

## **2022 MAR 5 - Jean Charles Moyen has meeting with Elena on the mothership Excelsior and describes the exact experience onboard**

Jean Charles Moyen and Elena Danaan describe trips they both took to a Galactic Federation mothership called the Excelsior

Jean Charles Moyen

Member of the French Secret Space Program

Served aboard the Solaris part of the Solar Warden fleet

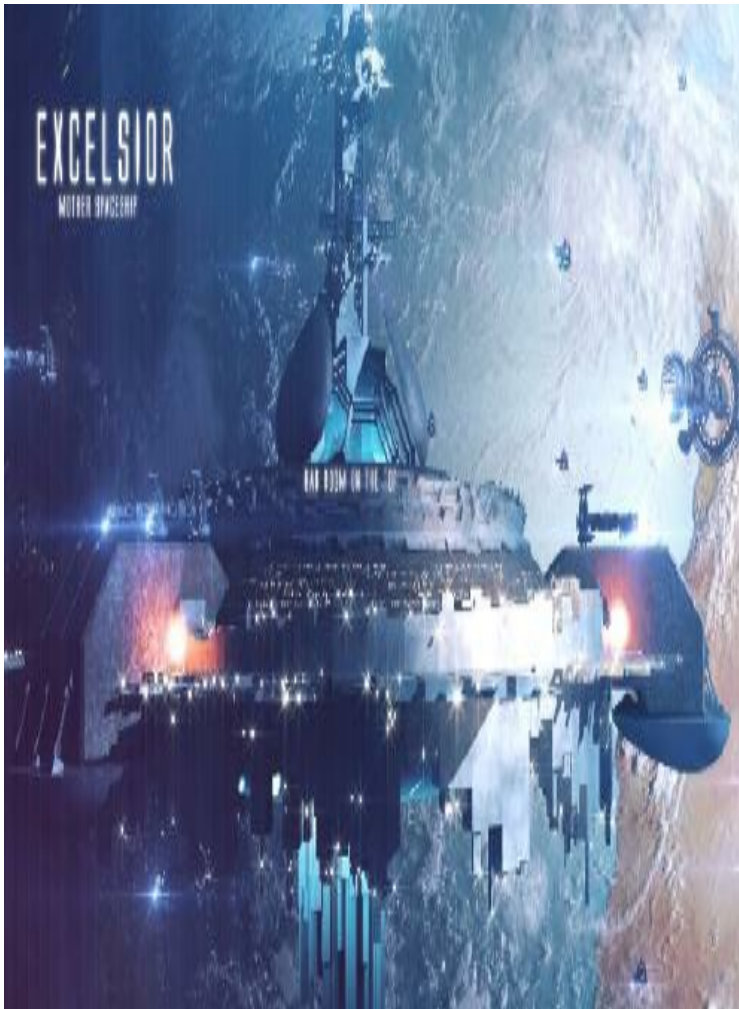

Went public Feb 2022

Jean Charles Moyen and David Rousseau both served as children and adults in a joint US French secret space program since 1981/1982. The both completed '20 and back' programs where they remember meeting and becoming friends on the Franco-US flagship the Solaris. They both discuss experiences they shared while working in the SSPs. Including their training with Maria Orsic, multinational and extraterrestrial personnel and facilities on the Solaris, and joint missions to Mars. The remarkable thing about these two French SSP witnesses that lends credibility to their testimonies is that before knowing each other on earth, **their separate testimonies have been independently corroborated.** [Ref](#)

*"The memory of these events was reconstructed by my testimony and the testimony of Jean-Charles Moyen put together. Jean-Charles is a French super-soldier who was recruited for a "20 and back" program in the Solar Warden Fleet. I met him through Dr. Michael Salla, and we became friends after realizing with stupefaction that the extraterrestrial mothership he was visiting for leisure time, when he was in service, and that he named the "Excelsior", was indeed the same battle-station where Thor Han lives and works. Jean-Charles and I compared identical memories of a particular cafeteria, with extremely detailed description of food replicators, bars with floating androids serving ionized blue drinks, the interior design in the station, teleportation pads etc... "*

The complete conversation was recorded on video on Elena Danaan's YouTube channel: <https://youtu.be/H2A8aLxYI-M>

## **2022 MAR 28 - Thor Han says to watch for activity on Neptune to be revealed, then two weeks later NASA substantiates it**

One week later many science publications show a large red abnormality on Neptune

On March 28, Elena Danaan received the following [message from Thor Han](#) about changes in our solar system caused by the arrival of the Seeders/Guardians that can be traced back to the interstellar object, Oumuamua in October 2017:

Excerpt from Elena Danaan's book [THE SEEDERS: The Return Of The Gods](#)

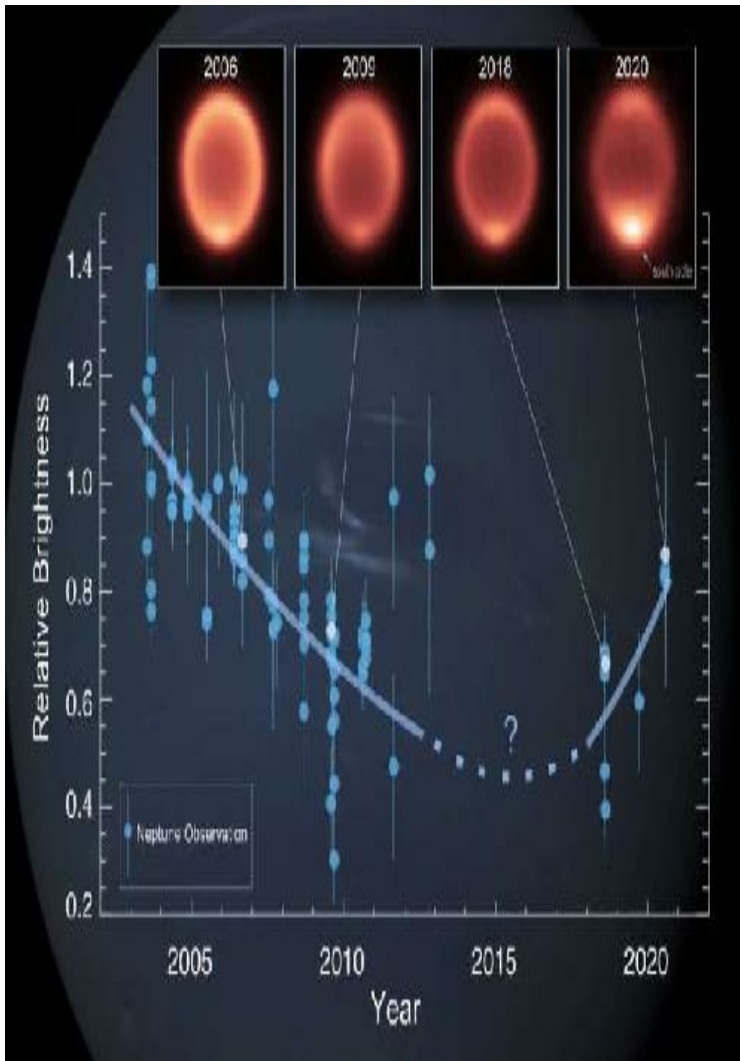

*"The ships are coming, the Guardians are on the outer orbit of Terra, four ships for the moment. They are watching, in time dilation. Suspended in time like the old Oumuamua. It was one of their ships. It has activated. The ones in the ice belt have activated too. And all the others, one by one, on all the planets. **Neptune is next. You will see, you will hear about Neptune soon. But don't forget to tell them: They are lucky and privileged to see this.**"*

"Thor Han was clearly implying that there was an Ark on Neptune, that it was activating, and would soon draw public attention. Two weeks later, on April 11th 2022, multiple articles from scientific

websites flooded the internet with news of a discovery made about Neptune, that substantiated Thor Han's announcement three weeks before: NASA scientists announced that despite the fact that the planet was in a cooler temperature cycle, its south pole was suddenly and mysteriously warming up dramatically... Using a fleet of ground-based telescopes, including the massive Very Large Telescope in Chile, an international team of astronomers recorded some spectacular temperature changes on the eight planet from the Sun. This was totally unexpected and baffling for the scientific community. Even better: NASA was hinting at the idea to send their next flag ship mission to Neptune. No coincidence there."

Thor Han's message clearly links the sudden heating of Neptune's South Pole to one or more activating space arks

Thor Han's prediction is quite remarkable given that it preceded the results of the astronomer's observations published two weeks later in [The Planetary Science Journal](#).

## **2022 APR 22 - Crystal technology information from Jen Han Eredyon corroborating with Dr Marcel Vogel's research**

This date marks the start of a question/answer exchange that I have done through Elena, relaying the information from Jen Han Eredyon, who is Thor Han's younger brother. What I have found is that all of the information Jen Han has shared in regards to the science and interfacing of consciousness with quartz crystals to corroborate perfectly with what IBM's head scientist [Dr Marcel Vogel](#) was able to quantify and measure in his laboratory.

Jen Han Eredyon, a Pleiadian scientist from the planet Erra and Dr Marcel Vogel, a highly respected scientist on planet Terra

**Who is Dr Marcel Vogel?**

Dr Marcel Vogel was IBM's senior head scientist for over 27 years.

He was a prolific inventor with over 140 patents. He created the first magnetic coating used in computer hard drives. Created the red and blue phosphors for color television. Developed liquid crystal systems used into today's displays, and much more.

He was a pioneer in man/plant communications which led him into the research of the interface of consciousness with quartz crystals and water which he researched extensively for 17 years. After leaving IBM he set up a fully equipped laboratory to measure and quantify the science of crystals and developed a method to amplify and cohere the energies of mind by forming a quartz crystal in a di-pyramidal form known today as a "Vogel Cut" crystal. He trained dozens of medical doctors in using his developed technique utilizing the crystal with breath to alleviate various health issues in the higher energetic fields of the body and had great success. He was no doubt the first scientist of his caliber to pioneer the understanding of the energies of mind connected with the breath, quartz crystals, water and most importantly love. He was also a close friend and research associate who I worked on projects with in the 1980s

A "Vogel Cut" quartz crystal

### **How all of this came about?**

Mar 9, 2022 I joined Elena on a show called "From Past to Future" <https://youtu.be/2FEFj2jVOFo> I talk about my involvement as a top secret military witness, then Elena asks me about the work I did with Dr Marcel Vogel and crystals

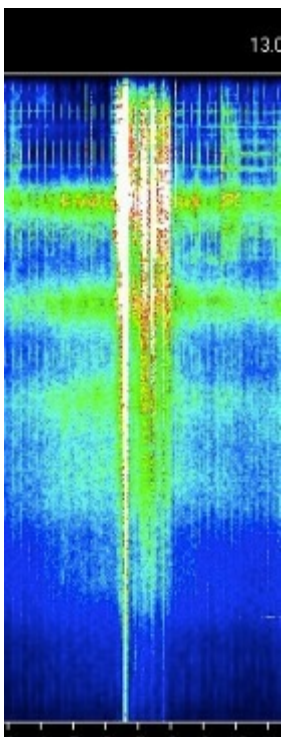

### **Who is Jen Han Eredyon?**

Elena explains how this evolved:

"I have had the pleasure to meet Thor Han Eredyon's brother whose name is Jen Han, he's his younger brother. Thor Han is my contact in Galactic Federation of Worlds and these both persons are from the Pleiades from the planet Erra, it's a planet of the Taigeta system that they call Ashara and Jen Han, Thor Han's younger brother is an incredible person, he lives there still and he is studying how to become a terra former, they don't call it terra former, they call this discipline star making, so he says he's a star maker and I have connected with him last year and when we both, Dan and myself started to think about working together on a project about crystals, I thought about Jen Han I said to Dan, well Jen Han knows a little bit about crystal technology and I had the opportunity to connect with him via Thor Han, so Jen Han is a student, he's in a sort of university in the Pleiades studying terraforming and Dan asked questions, [a list of questions](#) that are transmitted to Jen Han and he replied and our minds were totally amazed, because what Jenhan replied matched in all every point what Dr Marcel Vogel had discovered in his research and both were completing each other."

Apr 22, 2022 The first communications from Jen Han Eredyon via Elena giving answers to my questions are received. This starts an ongoing [communications log](#)

Jun 12, 2022 Elena and I found so much that corroborated with the research work of Dr Marcel Vogel, that we decided to create a special show showing how the information about crystals from this Earth scientist and Pleiadian scientist compared. We also decided to put this knowledge into practice with the thousands of show viewers to imprint a vision of a positive timeline into the planetary matrix. According to Jen Hen, this had an effect on the planetary matrix and was measured by a spike on the Schumann resonance.

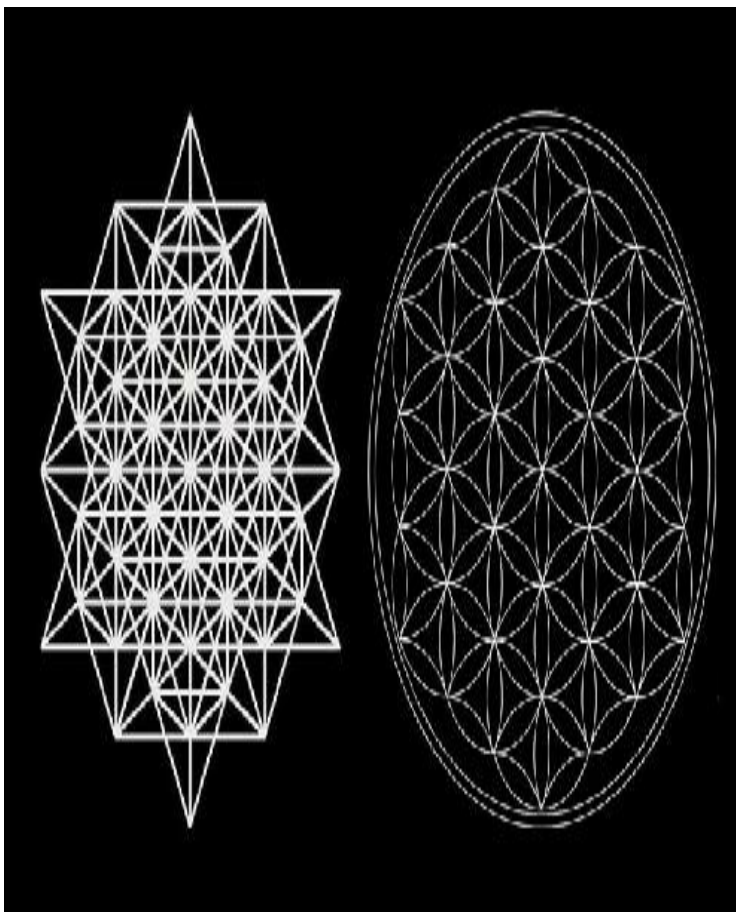

The show was called "CREATING A POSITIVE TIMELINE IN THE PLANETARY MATRIX USING A CRYSTAL" with Elena Danaan & Dan Willis <https://youtu.be/tl7yLhMzwIM>

Detailed notes of the show <https://marcelvogel.org/crystaltimeline.htm>

Since April 2022, Elena and I have learned a lot about the science of crystals from Jen Han, who has taken the pioneering work of Dr Marcel Vogel to another level of understanding. Jen Han corroborated much of Marcel's work having to do with the nature and qualities of quartz, water and love, and how these are all based on a similar core fractal holographic formula that allows them to bridge dimensions. Also, how the energies of mind project geometric patterns to affect the tetrahedral fractal geometry of the holographic matrix of reality. How the pulsed breath as Marcel discovered, was the most effective method of imprinting into the crystal, which he was able to measure in his laboratory. What Marcel was not aware of, is

the termination angles he created based on a vision he received in a dream of what is called a "Vogel cut" crystal, allows the formation of a phase-conjugation node within the crystal. This node when piezoelectrically stimulated, can open up a singularity vortex that can allow consciousness to imprint into the hologram of the planetary matrix of the planet to allow it to morph and change reality and so much more! There is much yet we have to learn. This has been an incredible opportunity to learn from a scientist from another star system culture that is thousands of years ahead of us in scientific understanding. These communications exchanges are currently ongoing.

The tetrahedral fractal geometry of the holographic matrix of reality is the secret of the universe

Just to keep you updated about Thor Han's activities: he is on a temporary mission at the moment in charge of the security of the new colonists from Alpha Centauri, so he checks on Mars nearly every day. I got to see through the eyes surveillance, and yesterday he was visiting the station Arise Prime. I got to see a bit of the inside. He was in the main entrance area, which was still very winding, at times very narrow. The place will all sorts of machines. Arise Prime was built by Earthlings with the help of Clavans, so it is not the highest tech architecture. The station seems huge. Thor Han was discussing with two Martian resident engineers, wearing red and silver uniforms. One was learning, the other exasperated, with dark grey eyes, pale skin and elongated skull. Then they walked down a metallic staircase that was very steep. I ask Thor Han telepathically the reason for his presence there, as it had nothing to do with the A. Centaurian colony, and he replied that there had been a severe Earthquake due to a resumption of operations that have started. So Arise Prime got slightly damaged but not enough to worry. Oh and he said that the name is going to be changed. When I asked who will decide for it, he replied "The nine Martians. It is their now." He then explained that this base is now a shared base with Martian Rapilla's and local Earth military. Most of the personnel and residents who wished to stay did stay. Thor Han added that Arise Prime was going to be seen in the near future as a memorial place. Although it will still be used for very subtle tasks like spying on the general population.

Here was a little Martian update, just to keep up with Thor Han's adventures!

## **2022 MAY 6 - Thor Han reveals Intergalactic Confederation fleet near Earth's orbit on ISS camera feed as part of a disclosure plan**

It was indeed revealed by Elena back on October 10, 2021, that spacecraft belonging to the Intergalactic Confederation would soon start moving towards Earth's orbit. She quoted Thor Han who said:

*"The fleet from the Intergalactic Confederation has arrived in this star system. Their ships will be stationed around Jupiter for a while, until further notice to move nearer to Earth's orbit."*

The International Space Station (ISS) camera feed shows dozens of space craft passing by its camera view on May 6, showing a formation of more than 30 UFOs captured by one of the live cameras of the International Space Station.

The ISS live camera footage appears to corroborate that spacecraft belonging either to the Intergalactic Confederation or the Galactic Federation of Worlds have moved into Earth's orbit and have begun revealing themselves.

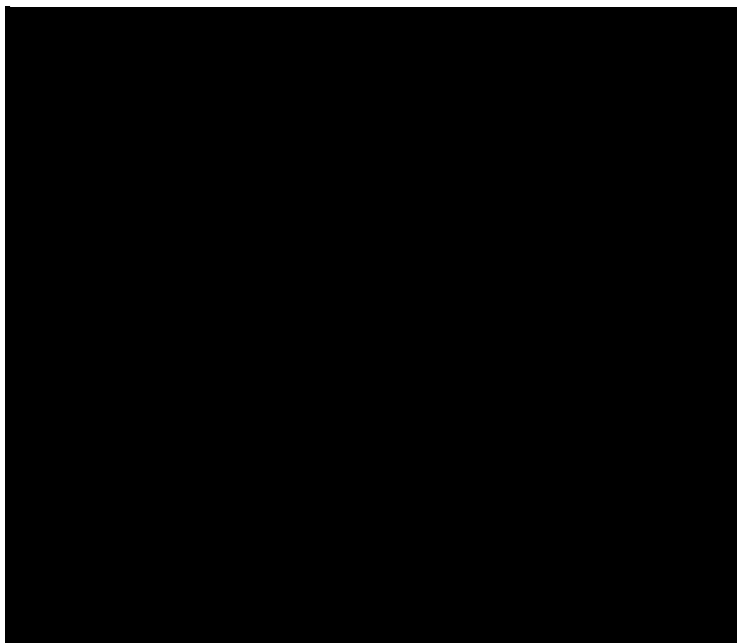

According to information received by Elena Danaan, a former professional French archeologist, the UFOs belong to cooperating extraterrestrial organizations that are part of an officially sanctioned disclosure plan being conducted with an Earth Alliance.

I asked Elena Danaan if her primary Galactic Federation of Worlds contact, Thor Han Eredyon, knew anything about the UFO formation. This was her answer:

Yes Michael, **this is part of the disclosure plan with the GFW.** Thor Han confirms it is one of their fleets, performing this in collaboration with the ISS. He asks to pay attention to the pattern. Remember, as I told you a few months ago, consequent to the arrival of the Intergalactic Confederation near Jupiter, it was decided that a disclosure plan would be put into action: the Earth Alliance in charge of disclosing documents, and the GFW & IC showing their ships increasingly to get civilians progressively used to the ET presence without causing chaos. He also says that the enemy will try everything they can to discredit this plan of action but will not manage to stop it.

May 2022 - Elena relayed more details from Thor Han about the disclosure plan currently underway:

Thor Han adds that the Earth Alliance will soon disclose [information about TR-3b](#) and retro-engineered technology. He adds that they will present it first as “defense secret programs” developed to protect the

US from other nations' attacks. The off-world programs will be revealed in a second part, later, at an unknown date, depending on when this first information will be "digested" by civilians.

**2022 JUL 12 - A huge fleet of the Intergalactic Confederation ships parked behind Jupiter being spotted on James Webb Space Telescope?**

James Webb Space Telescope (JWST)

On July 12, NASA held an international live stream releasing the first official images from the James Webb Space Telescope showing a noticeable dark field just above the gas giant's atmosphere. Was it a shadow, as NASA appeared to claim, or something entirely different – part of a newly arrived extraterrestrial space fleet secretly parked around Jupiter as Elena has disclosed?

*Figure 1: NIRCam narrow-band imaging of Jupiter, moons, and ring. PID 1022 demonstrated that JWST can track moving targets even when there is scattered light from a bright Jovian planet. At left is a NIRCam short-wavelength image in filter F212N ( $2.12\ \mu\text{m}$ ); at right is a NIRCam long-wavelength image in filter F323N ( $3.23\ \mu\text{m}$ ). The exposure time was 75 s. The Jovian moons Europa, Thebe, and Metis are labeled. The shadow of Europa is also visible, just to the left of the Great Red Spot. The stretch is fairly harsh to bring out the faint moons as well as Jupiter's ring.*

I asked Elena Danaan and Jean Charles Moyer, two contactees with different groups of extraterrestrials, whether any of their sources could explain the dark area. Danaan replied first that Oona, a representative of the Intergalactic Confederation, had a message to share. She publicly released Oona's message in a July 13 [live stream on YouTube](#). Here's the complete message of what Oona had to say about the mysterious dark area, along with information about newly arrived space fleets that had parked in the vicinity of Jupiter.

*"Salutations to who will read this communication I am transmitting now. Here first Altean emissary Oona speaking on behalf of the Intergalactic Confederation, Council of the Twenty-Four. There are one hundred and thirty-eight motherships part of the Nataru Alliance in your star system named Sol, with their fleets. This number represents several thousands of crafts. Five hundred and fifty vessels of the Intergalactic Confederation have entered your star system and are stationed in orbit of your planet named Jupiter, and four are at the present moment in orbit of your planet Terra.*

*The recently disclosed image of your planet Jupiter displays the cloud of orbital rocks, plus the defense grid of the ships from the Ashtar outpost, plus some of our motherships. The majority of our fleet is behind the planet Jupiter, hidden from your sight.*

*The disclosure of this image is not an error but a move from the Terran Alliance in charge of the program. Terran instances may name our ships "cold spots", there is truth. More visuals to come. The plan is on schedule. One step at a time. We are holding your hand and you must not look back. Instead, look up. In the greater design of the universe, you are already on the other side of the bridge."*

Along with Elena Danaan and JP, other contactees have described being told by their extraterrestrial contacts that newly arrived space fleets have parked in the vicinity of Jupiter. These include Alex Collier, James Gilliland, Jean Charles Moyen, and David Rousseau, all of whom confirmed in interviews that large numbers of extraterrestrial spacecraft had recently arrived.

Ref: <https://exopolitics.org/webb-image-of-jupiter-reveal-giant-et-motherships/>

Then on July 27, 2022, the James Webb Space Telescope released

an image of Jupiter's Great Red Spot using one of its infrared cameras. The image contains a cylindrical-shaped object floating high above Jupiter's atmosphere that appears to be more than a thousand miles long. The image corroborates claims of giant spacecraft recently arriving in our solar system and parking in the vicinity of Jupiter.

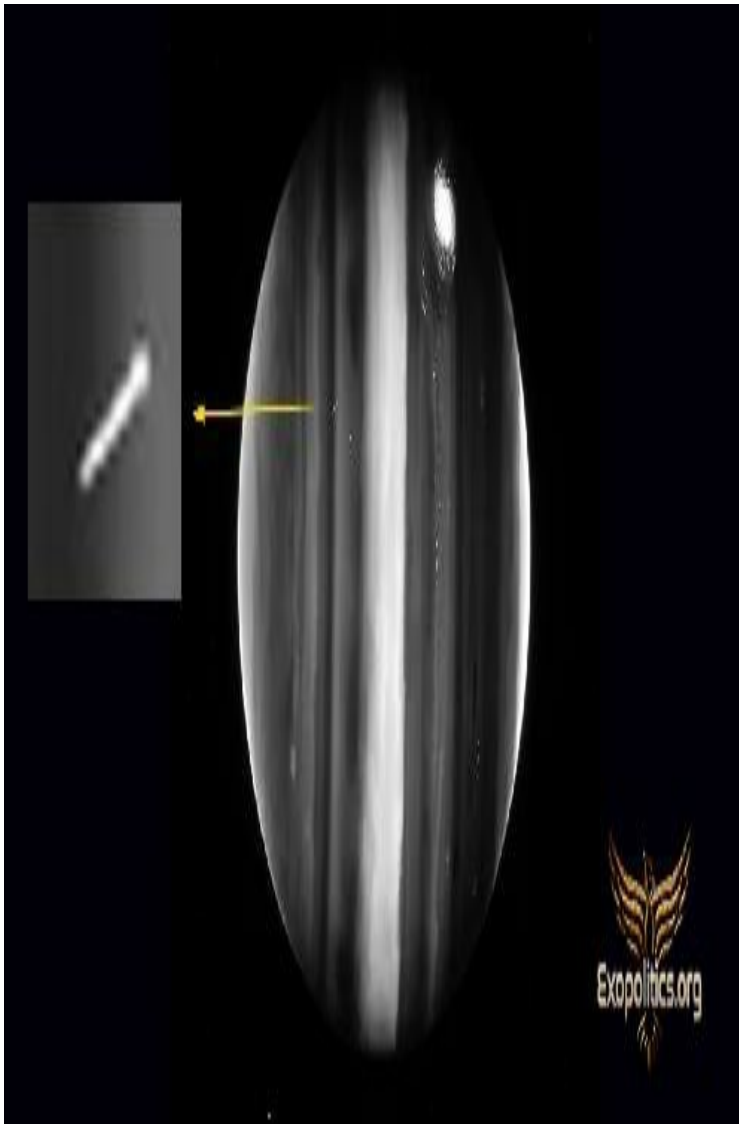

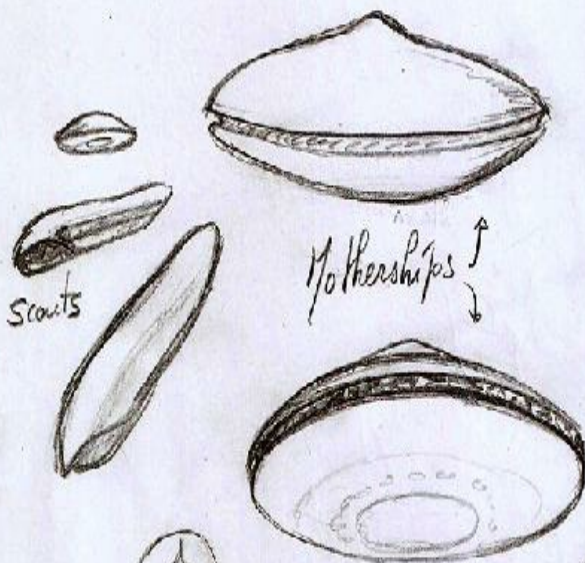

Image from [Exopolitics.org](https://www.exopolitics.org)

The Webb image and JP's data about Jupiter corroborates

information previously released by Elena Danaan concerning the composition of the extraterrestrial fleets she described as belonging to the Seeder races (aka Intergalactic Confederation). She provided an illustration of the different craft and beings that belonged to the Seeder fleets, one of which had a cylindrical design.
